

Web Design & Implementation

Assignment 3

Due: Next Section. (one day before if you submit by email)

Notes: This assignment is individual assignment, every student should complete it by himself.

1. To practice the CSS, create a new page looks as following:

sallam.cf'. The main content area is divided into four quadrants by a central white box. The top, left, and right quadrants are yellow and contain the text '.... add your ads here'. The central white box contains a blue rectangle with the text 'Royal place to add your ads I will stay here whenever you scroll up or down'. Below the blue rectangle, there are three lines of instructions: 'In the Top <div> write a good title as a <h1> followed by a short paragraph as shown above.', 'In the Left and right <div> create multiple <div> to host customers ads, these <div> elements should be absolute to this place.', and 'In the center <div> create a another <div> to be fixed in the middle whenever the user scroll up or down in this page.' The bottom quadrant is also yellow and contains the text '.... add your ads here'."/>

This is my first advertising page

This is just a simple home page to practice the CSS different elements for more information please visit [sallam.cf](#)

.... add your ads here

In this simple HTML file you should mimic an advertising website.
The page contains 4 main <div> elements (Top, Left, Middle, Right).

Royal place to add your ads
I will stay here whenever you scroll up or down

In the Top <div> write a good title as a <h1> followed by a short paragraph as shown above.
In the Left and right <div> create multiple <div> to host customers ads, these <div> elements should be absolute to this place.
In the center <div> create a another <div> to be fixed in the middle whenever the user scroll up or down in this page.

.... add your ads here

.... add your ads here

.... add your ads here

.... add your ads here

2. Name your page ads, and Upload to your webhosting account.

3. (10 points) Show/share your new webpage with the lab instructor.
